# Narrow Aisle Steps

Designed specifically to turn on its own axis where turning circle is restricted. Standard 54 degree slope angle so can be used in area where space is tight such as narrow warehouse aisles

- Specially designed mechanism that allows step to turn virtually within its own length
- Lever operated retractable castors
- Safety bar to deter access to steps when in a mobile position
- Steel mesh treads 490mmW x 160mmD
- Steel mesh platform
- Up to 150kgs for safe working load
- Handle mechanism fitted on right hand side as standard
