

Wide Span

Our heaviest duty hand loaded shelving system

Our popular heavy duty shelving system is perfect when storing lots of weight. Available in bay widths up to 2.67 metres it is ideal for spanning over ground level pallets.

Wide Span is available as heavy duty with 25mm chipboard, or extra heavy duty, using 18mm chipboard with steel deck supports.

For a corrosion resistant, durable finish, the chipboard can be replaced with strong steel galvanized panels that offer a life time of use.

- Each level can take up to 1100kg
- Simple boltless assembly
- Hard wearing powder coated finish
- Order as separate end frames and levels
- Levels height adjust every 25mm
- No bottom beam required - allowing palletised storage at ground level only
- Frames come ready assembled
- See page 54-57 for Pallet Racking

Featured run consists of 3 frames and 7 levels
