Drum Racking System

Stacking stillage system for 200-220 litre steel drums. System consists of a steel racking unit and a fully welded sump to collect drips and spills from containers, protecting floors.

Stillage

- Designed for use with forklift truck
- Fork pockets suitable for 920mm fork width
- Strong welded steel stackable stillage
- 430mm between fork pockets - pocket measures 240 x 70mm
- Maximum stacking height of 3 units
- Complete with welded supports, ready to hold two drums per stillage

Sump

- 3mm thick steel
- Fully seam welded
- 100mm ground clearance
- 250 litre maximum capacity
- Aids compliance with the Oil Storage Regulations (England) 2001
