

# CAMBRO® Shelving

High specification shelving designed specifically to meet the extremely tough food and hygiene industry's standards. The steel core sealed in a refined polypropylene outer makes it particularly suitable for use in cold rooms, hospitals, pharmaceutical units, computer component storage and the care and food industries

- Simple boltless assembly
- Strong and easy to clean
- Heat and cold resistant - from -38°C to +70°C
- Each shelf can take up to 150kg, adjustable every 100mm
- Shelves are dishwasher safe
- Choice of ventilated or solid shelves
