Rapid shelf plan
Assembly instruction
**ASSEMBLY**

1. Join both ends from A with beams C at the selected levels. Fix beams C in place with the beam locking hooks F, 2 per beam.
2. Insert beam tie strap H with the centre of each level.
3. Place the chipboard shelf E or the galvanized decking G into the beam levels.
4. For garment hanging rails D, place them at the selected levels and fix with beam locking hooks F.
5. We recommend the system is fixed to the floor with the anchors provided.

**NB:** This shelving system is not designed to be loaded by mechanical means, e.g. fork lift truck. Always load and unload by hand.

Tools required:
Rubber mallet, electric drill and metric spanners

We advise the use of protective gloves and goggles, or eyeglasses when assembling this product.

Also available with galvanized decking

Also available 2 Level Garment Bays
**RAPID SHELF PLAN**

**COMPONENTS**
