Rapid span
Assembly instruction
**ASSEMBLY**

1. Join the upright Frames A using front and rear beams C at the desired heights.

2. Insert the beam safety pin F.

3. Add chipboard supports E if the Heavy Duty levels have been ordered. For quantities per level see over.

4. Fit shelves D between front and rear beams C.

5. Secure the unit to the floor with fixings B, if required.

**NB:** This shelving system is not designed to be loaded by mechanical means, e.g. fork lift truck. Always load and unload by hand.

If you have any problems with this product or its assembly, please contact your local distributor or call our helpline on 01285 686868 where a team of experts will be pleased to help.
