Rapid silver workbench
Assembly instruction
IMPORTANT - ASSEMBLY INSTRUCTIONS

Tools required:
Allen key and spanners

1 Lay the workbench top H on the floor or trestles. Take one rear upright A and locate in any corner loosely fixing in place with 8 bolts, nuts and washers F. Similarly fix the second rear upright.

2 Fix the front uprights ensuring the slot for the side supports D is facing the rear.

3 Fix the back and side supports D and E using the remaining dome head bolt, screwing into the threaded holes on the support.

4 Tighten all bolts and nuts.

5 Optional adjusting feet G can be fitted now.

6 Turn unit over and place in correct situation.

7 The protective work surface I may be left loose on the top but can also be fixed with impact adhesive.
